E3

Its unusually strong frame conceals a technical tour-de-force that produces powerful sound. The specially designed double woofer guarantees a warm sound that carries over unusually long distances. The curved design ensures that your favourite music will be distributed throughout the entire room. The E-loudspeaker is available in black or white, and comes complete with the multi-functional bracket.

① The gold-plated connection modules for the loudspeaker cables guarantee optimum conduction.

② This specially designed bracket is multi-functional. You can use it as a base, wall bracket or even as a ceiling bracket. Thanks to the ball and socket joint, you can align it in any direction you like, using each of the three options.
